PROPERTY DESCRIPTION

Situated on the quieter north end of Seven Mile Beach, The Renaissance has proximity to everything you want without feeling like it. A small luxury residence of only 37 condos, its tucked away location and size offer tranquillity, while its amenities rival that of a large resort. And centred in the very middle of this luxury community is this rare 3,652 square foot, 4 bedroom home. A size and bed count you would be hard-pressed to find anywhere else on Seven Mile Beach. But the real difference is the condo's 48-foot width, directly facing the beach and water, offering not one but two oceanfront master suites. The living, dining and kitchen areas are positioned between both master suites creating in-house privacy. Amenities include an infinity-edge pool, heated spa, a fitness centre, two dedicated car parking spaces in the under-building parking garage, elevator access, and an exceptional on-site management team. For investors looking for an income property, the Renaissance's experienced team run a finely tuned, very successful vacation rental program. But the piece-de-resistance of this community is the incredibly serene white sandy beach, with an impressive depth and width you also would be hard-pressed to find anywhere else on Seven Mile Beach. Schedule an appointment to view and see just how incredible these views really are.
