Like a sail, these contemporary villas are designed to catch the cooling sea breeze, and characteristic of all Davenports developments there will be a strong emphasis on the outdoor environment with immense roof terraces and private patios overlooking the lush landscaping. Also true to form will be the structurally solid and energy efficient ICF building technology used in all Davenport Developments. Many of these villas will enjoy sublime views over the private South Sound beach frontage (scroll down for map), and all residents will benefit from the heavenly resort style comforts of a fully equipped gym, spectacular Olympic length pool, tennis court, onsite property management and concierge services.
